Professional Profile

I am an enthusiastic and innovative team player seeking a position in software and web development. I have front-end development experience and have demonstrated my proficiency in programming languages such as HTML5, CSS, and JavaScript. My passion for creativity and design drives me, and I am excited for the opportunity to begin my career in a professional working environment.

Key Skills Summary

Programming: Java, Ruby, C#, Python, Swift, TypeScript
Development: HTML/CSS/JavaScript, Ruby on Rails, ASP.NET, NodeJs
Database: SQL, MySQL, PostgreSQL
Version control: GIT
Cloud platforms: AWS, Heroku, Azure

Education

Professional Year Program   **March 2022 – March 2023**
Performance Education

Bachelor of Information Technology   **Feb 2018 – Jan 2020**
Software Development, University of South Australia

Diploma of Information Technology   **Feb 2017 – Jan 2018**
South Australian Institute of Business & Technology

Academic Projects

Model Transformation Engine and Web-based   **July 2019 – Dec 2019**
Visualization in Ruby
University of South Australia, MIMOSA (partnering with Escher Soft)
The project goal was to build a webapp which is an engine to transform data of different types (especially CSV, Excel, and JSON files).
The engine is built with Ruby & JSON.
It is formed on a web-based front-end (HTML/ CSS/ Java Script) and a server back-end (Ruby on Rails) with a database (PostgreSQL & SQLite3).
The app is hosted on the cloud service (Heroku server).
I was working as a team leader on designing the UI and the engine in the team of 4 members.
The client was happy with the engine, and we all got HD for the course.

Relevant Employment Experience

Software Developer - Internship   **Oct 2022 – Jan 2023**
GaP Solutions
- Worked on a company project being used currently by the customers:
    - Built with NodeJs, MySQL, TypeScipt and JavaScript
    - Debugged and updated all application's dependencies
    - Rewrote some codes to make it compatible with all updates
- Redesigned the database connection settings of some company applications:
    - Used C# and designed with Windows Form and Tabs
    - Added ways to connect to the database requiring username and password
    - Users can choose different database providers and types of databases

Full-time Front-end Web Developer   **Apr 2020 – Mar 2021**
Vietan Logistics, Ho Chi Minh City, Vietnam
- Redesigned and created the webpage content (HTML/ CSS/ JavaScript)
- Re-organized the company system
- Designed logos, banners, posters, etc.
- Wrote daily content on the company's webpage and Facebook fan page
- Ran ads campaigns on the company's Facebook fan page
- Weekly scheduled work for employees
- Planned ideas for upgrading and enhancing the company's import, export, HR management, structure, and system
- Planned ideas with another back-end developer for more efficiently managing customers' details.
- Directly hold job interviews for the company

Casual Front-end Web Developer   **Oct 2019 – Mar 2020**
Claymore Wines, Prospect, Adelaide
- Rebuilt the structure (HTML/ CSS/ Java Script)
- Added new features
- Used the website database based on WineDirect
- Planned ideas with the company General Director and created ads campaigns.
- Worked one day a week or every two weeks, changed, or rewrote the webpage's content when they needed.

Other Employment Experience

Floor Staff and Sushi Chef
Kintaro Sushi – Brickworks, Adelaide   **Mar 2022 – Present**
- Setting tables with clean sauce jars, napkins, and tableware
- Greeting and escorting the guests to their table
- Taking orders (including phone orders) and delivering them to the table deftly and accurately
- Offering an excellent customer service and customer satisfaction
- Checking the quality of the final servings and resolve any issues
- Delivering checks and accept payment
- Working with other staff as a team
- Working diligently to achieve outstanding service quality
- Making sushi and doing good preparation to make sure the inventory is well-stocked
- Checking the inventory and reporting to the manager and the restaurant's partners.

Personal Attributes

- Excellent interpersonal skills as demonstrated through more than 3 years of experience in customer service, especially organizational structure, problem solving and multi-tasking
- Teamwork and Leadership – I worked as a team leader in a team to build a web app for the client. I understand how teamwork is important and know how to follow-up, time manage and distribute tasks to the team member
- Adobe Photoshop, Premier Pro and Photography – Personal interests to develop my creativity
